Laurel’s Business Plan

QUALITY POLICY

Continual Improvement is the expectation in every aspect of our business. This includes the Quality Management System. Laurel’s Quality Policy can be found in the Laurel Quality Statement below. The Quality Policy reflects Laurel Steel’s Vision Statement that reads:

“We believe that every one of our TEAMMATES can help us achieve our vision of being the Safest, Highest Quality, Customer Focused, and Most Profitable, Cold Finished Bar, Wire and Mesh Products Company in North America

ONE COMPANY: ONE NUCOR.”

These Policies are communicated to all employees in the following ways:

- They are displayed in offices, lobby and the conference room
- All employees shall be trained in the above policies including a review of their roles and responsibilities
- New employees will receive the “new employee orientation”

Our Quality Policy is
to have the Customer return
not the Product.

As a manufacturer of Cold Finish Bar, Wire & Mesh, we are committed to meeting our customer's requirements and continually improving our Quality Management System.

The Quality Policy is reviewed each year for continuing suitability.

The Quality Policy and the importance of quality to the success of Laurel Steel is communicated to all employees through regular meetings and postings.

Annual improvement objectives are established and monitored and reviewed throughout the year

Roles and responsibilities for quality are clearly defined.
