

CTPAT Statement of Support

Laurel Steel has been a proud member of the Customs and Trade Partnership Against Terrorism (CTPAT) program since 2005. CTPAT is a voluntary public-private sector partnership program which recognizes that the U.S. Customs Border Patrol can provide the highest level of cargo security only through close cooperation with the principle stakeholders of the international supply chain.

As a manufacturer of cold finished bar, wire and mesh and a supplier to U.S. customers, Laurel Steel strives to improve border security in order to protect the supply chain from criminal activities such as drug trafficking, terrorism, human smuggling, and illegal contraband.

Laurel Steel has developed, and maintains, a multi-layered security program that is consistent with the CTPAT minimum-security criteria (MSC), and remains committed to protecting our organization and supply chain from any illegal or illicit activities.

Security is everyone's responsibility. All employees and business partners, must comply with the company's CTPAT policies and procedures.

Wayne Dewitt
Plant Manager
